A Lesson for the Teacher. A Lesson for the Teacher.

Johnnie was sent to study mathematics, and the teacher told him that it was a true science. "For instance," he said, "if it takes one man twelve days to build a house, then twelve mor can build it in one day." Johnnie replied: "And 288 men will build it in an hour, 17,280 men in a minute and Le26,800 men in a second. Now, I don't believe they could build one brick in that time. Asain, if one ship can cross the Atlantic in twelve days, twelve ships should be able to cross it in one day. I don't believe, that, either, so I'm not going to study mathematics," and Johnnie left the teacher studying it himself.—Dundee Advertisser.
